Questions received and answered by UMRWA:

Question 1. Paragraph 5 of Exhibit B, Consulting Services Agreement, indicates that this work may be contracted under a unit price contract, potentially based on survey acres. (“Compensation to Contractor shall be paid on a TBD basis for actual acres completed, in performance of the Work”) However, the RFQ requests only the hourly rates of our team. Are the contracts resulting from this RFQ going to be time and materials or unit price?

Response 1. It is UMRWA’s expectation that contracts will be based on unit prices. For the purposes of this RFQ process, for which there is no specific project under consideration, we have asked firms to submit hourly rates. These hourly rates will serve as a relative indicator of cost.
